

# Vietnam Journal of Mechanics

Volume 47 · Number 3 · September 2025

## RESEARCH ARTICLE

|                                                                                                                                                                      |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Effect of initial stress on the reflection and transmission of shear horizontal waves at the interface between two transversely isotropic elastic half-spaces</b> |     |
| Do Xuan Tung                                                                                                                                                         | 195 |
| <b>Cascade control for feed drive systems</b>                                                                                                                        |     |
| Ngo Hong Nam, Tran Thuy Uyen Phuong, Vo Lam Chuong, Truong Nguyen Luan Vu                                                                                            | 208 |
| <b>Embedded machine learning for fault detection in conveyor systems using multi-sensor data and discrete wavelet transform</b>                                      |     |
| Hoang Duc Do, Quang Minh Vien, Khang Hoang Vinh Nguyen, Can Duy Le                                                                                                   | 223 |
| <b>Magnetic and electrical properties of H13 tool steel by bound metal deposition 3D printing: Annealed and non-annealed</b>                                         |     |
| Le Hoang Trong Minh, Do Qui Duyen, Ngo Chi Vinh, Nguyen Quoc Hung, Le Vu Phuong Trinh                                                                                | 235 |
| <b>Simulation of the effect of mortar-aggregate interface on meso-scale damage behavior of steel fiber-reinforced concrete</b>                                       |     |
| Hoang-Quan Nguyen, Bao-Viet Tran, Gia-Khuyen Le, Thi-Huong-Giang Nguyen                                                                                              | 248 |
| <b>Numerical investigation of electro-conjugate fluid micro-pump under the effects of downstream angle and the negative electrode width</b>                          |     |
| Van Tran Do, The Khanh Lai, Toan Thang Vu, Thi Anh Nguyen, Ich Long Ngo                                                                                              | 259 |
| <b>Formulas for the velocity of Stoneley waves at the unbonded interface between two micropolar elastic half-spaces</b>                                              |     |
| Pham Thi Ha Giang, Ngo Van Trung, Pham Chi Vinh                                                                                                                      | 275 |
